(54) Title: METHOD FOR CREATING A MAP OF AVAILABLE RESOURCES WITHIN AN IP NETWORK

(57) Abstract: The present invention relates to resource manager for providing a resource map of an IP network, a method thereof, and a computer program product for performing the steps of said method. The resource map is obtained by combining a topology map of said IP network with resource information that comprises information about identities of logical addresses and quantity of logical addresses, and performing a mapping between said logical addresses and a physical interface within said IP network.
